

Train the Trainer seminar Part 2 (Graz)

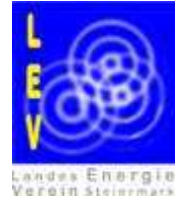

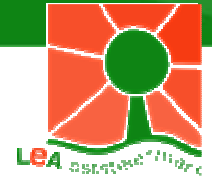

Decision preparing study

16. – 17. April 2008, C.Sakulin, Karl Puchas

Logic model

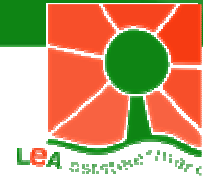

Decision preparing study....

- is individual (level of detail, contents)
- focus on special interesting details
- no tools are available (because of individual level)
- the content of the study is flexible

contents of a decision preparing study

1. Detailed evaluation of the heat demand
2. Analyses of the substrates/feedstock (N, gas value, ...)
3. Pre-dimensioning of the most important facilities
4. Focus on “hot topics”(like N, ...)
5. Selection of the technology
6. Detailed economic calculation
 1. List of investment costs
 2. Offers for delivering the different components of the plant
 3. Amortisation and depreciation of the components
 4. Details on financing
7. Next steps / summary / conclusion

Thank you for your attention
